DETAILED ACTION

Response to Amendment

Receipt of the Amendment, filed on October 24, 2008, is acknowledged.

Cancellation of claims 3, 6 and 13-14 has been entered.

Claims 1-2, 4-5, 7-12 and 15-17 are pending in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the title, pursuant to MPEP 606.01, the title has been changed as follows,
-- LED LAMP PROVIDED WITH OPTICAL DIFFUSION LAYER HAVING INCREASED
THICKNESS AND METHOD OF MANUFACTURING THEREOF --.

Allowable Subject Matter

Claims 1-2, 4-5, 7-12 and 15-17 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of increasing the thickness of the optical diffusion layer on the upper surface of the phosphor resin portion from around the center of the upper surface toward the periphery of the upper surface; wherein the phosphor resin portion has a cylindrical shape.

Art Unit: 2879

Regarding claims 2, 4-5 and 7-9, claims 2, 4-5 and 7-9 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 10, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 10, and specifically comprising the limitation of the thickness of the optical diffusion layer on the upper surface of the phosphor resin portion is greater around the periphery of the upper surface than around the center of the upper surface; wherein the phosphor resin portion has a cylindrical shape.

Regarding claims 11-12 and 15-16, claims 11-12 and 15-16 are allowable for the reasons given in claim 10 because of their dependency status from claim 10.

Regarding claim 17, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 17, and specifically comprising the limitation of (d) forming an optical diffusion layer, in which particles to scatter the outgoing light of the phosphor resin portion are dispersed, between the phosphor resin portion and the lens; and (e) increasing the thickness of the optical diffusion layer on the upper surface of the phosphor resin portion from around the center of the upper surface toward the periphery of the upper surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
